Cosmoline and Asphalt Remover

**Chemistry designed for top performance
and environmental compliance.
Rinses clean with water.**

Cosmoline and Asphalt Remover is a premium quality, no-VOC, biodegradable solution for replacing conventional solvents in tough cleaning applications.

- Safe on multiple surfaces, including steel, copper, brass, aluminum, plastic, rubber and painted parts.
- Non-alkaline, biodegradable ingredients to protect workers, surfaces and the environment. No harsh d-limonene citrus solvent.
- Non-VOC by CARB definition per ASTM D1298. No citrus extracts.
- Highly effective in the removal of asphalt, cosmoline transit coatings or heavy grease residues on parts, equipment or other surfaces.
- Rinses easily with water leaving the surface with no film and ready to paint.

USE INSTRUCTIONS:

Cosmoline and Asphalt Remover can be used undiluted in parts washers as you would for Stoddard solvent or mineral spirits. No heating is required. Cosmoline and Asphalt Remover can be applied directly on surfaces undiluted with a spray gun or placed in a dip tank. Allow the part to sit for 5 to 7 minutes then rinse with water.

TECHNICAL DATA

pH(as is).....Neutral
Color.....Amber
VOC.....None(CARB definition-ASTM D1298)
Flash Point.....180° F
