

GOTCHA!

FUEL AND OIL LEAK TRACER DYE

Chemistry designed for use in detecting fuel and oil leaks in diesel engines, hydraulic systems and other oil based fluid systems.

- Harmless to engines and equipment.
- Leaks will glow green when exposed to ultraviolet (blacklight) light.
- Minimize man-hours by reducing the time to find fuel leaks.
- Concentrated formula works quickly and cost effectively.

USE INSTRUCTIONS:

GOTCHA! Should be used 1ounce to 10 gallons of fuel or oil. It is recommended that the surfaces be cleaned of grease and grime.

TECHNICAL DATA:

Form.....Liquid
Color.....Red as concentrate.....Yellow-Green when diluted
Strength.....Concentrated
pH.....Neutral
Odor.....Mineral spirits
