HYDROGEN SULFIDE CONTROL **INDUSTRIAL STRENGTH**

Chemistry designed to counteract Hydrogen Sulfide gas released from wastewater treatment processes.

NON HAZARDOUS

- Completely safe and biodegradable.
 - Specifically targeted to control Hydrogen Sulfide.
 - Reduces the level of Hydrogen Sulfide - not just a masking agent.
 - Works quickly and cost effectively.
-

USE INSTRUCTIONS:

HYDROGEN SULFIDE CONTROL should be measured, metered or dripped directly into waste steam or tank to be treated. Product also may be sprayed into the air for Hydrogen Sulfide control.

TECHNICAL DATA:

Form.....Liquid
Color.....Blue
Strength.....Concentrate
