Liquid A Steam and Pressure Cleaner

Chemistry designed for high pressure spray and steam wash systems. Formulated to attack dirt, oil and heavy grease.

Liquid A is our premium liquid alkaline, moderate foam detergent for use in high pressure spray and steam wash systems for cleaning difficult soils.

- Safe on multiple metal surfaces including aluminum and alloys.
- Safe on most painted surfaces, plastic or rubber parts.
- Attacks and destroys dirt, heavy grease, lube oil and soils.
- Formulated to work well in hard or soft water.
- Non-hazardous by DOT standards and fully biodegradable.

USE INSTRUCTIONS:

Liquid A should be used at concentrations varying from 1 ounce per gallon to 12 ounces per gallon, depending on the nature of the application. Best results are obtained when rinsed off with fresh water.

TECHNICAL DATA

pH (use dilution).....	Approximately 12
pH (concentrate).....	12.5 to 13.2
Color.....	Green
Rinseability.....	Excellent
VOC.....	None
