

LIQUID ALKALINE DETERGENTS (Rack Washers)

Tysol 196, 931, 931/R and 1031 are all formulated to clean locomotives. These products contain a blend of surfactants formulated to penetrate carbonaceous soil, oily soot, grease and road grime.

- Designed for use in exterior rack washers.
- Great for routine maintenance cleaning of diesel engines, compressors and engine room walls and floors.
- Products contain no known carcinogens, heavy metals, phosphates, sulfuric, hydrofluoric, hydrochloric or phosphoric acids.

USE INSTRUCTIONS:

- For normal soils 5 to 10% solution is recommended.
- For heavy soils 10 to 15% solution is recommended.

TECHNICAL DATA:

pH (use dilution).....	11 – 12.5
Color.....	Light Amber
Rinseability.....	Good
Specific Gravity.....	1.0 – 1.1
