

LIQUID ALKALINE DETERGENTS

(Pressure Spray System)

Tysol 827R and 827RX2 are formulated to clean locomotives by hand or for use with a high pressure spray system.

- Especially designed to clean locomotive engines and engine rooms.
- Effective on carbonaceous soils, oily soot, grease and road grime.
- Great for cleaning locomotive shop floors and walls.

USE INSTRUCTIONS:

- For normal soils 5 to 10% solution is recommended.
- For heavy soils 10 to 15% solution is recommended.

TECHNICAL DATA:

pH (use dilution).....	11 – 12.5
Color.....	Light Amber
Rinseability.....	Excellent
Specific Gravity.....	1.0 – 1.2
