Ultra-Wash

Concentrated chemistry designed for cleaning of railroad locomotives and cars. Formulated to attack dirt, oil, lubricants and heavy grease.

Ultra-Wash is a super concentrated premium liquid foaming detergent for use in the cleaning of rail vehicles. The product is non-hazardous and biodegradable.

- Safe on multiple metal surfaces including aluminum and alloys.
- Safe on virtually all surfaces including painted surfaces, plastic, glass or rubber parts.
- Attacks and destroys grease, oil and dirt deposits.
- Near neutral pH for maximum safety.
- Optimized for disposal to sewage treatment facilities.

USE INSTRUCTIONS:

Ultra-Wash can be used at ½ to 5 % with water. Best results are obtained by low pressure application of the wash solution followed by a high pressure rinse. The wash solution is free rinsing which results in a no residue surface.

TECHNICAL DATA:

pH (use dilution).....	8.5 to 9.5
Odor.....	Very Mild
Rinseability.....	Excellent
